45-60 minutes

English language comes alive as children follow the animated adventures of Joey and friends with learning materials that bring 2D characters to life with 3D animation and sound.

In *(country name)*, audio tracks are downloaded online.

Kids love learning English with Joey, Kangi and Paul. Packed with videos, songs, stories and entertaining characters, the programme comes to life with augmented reality and a downloadable app. The characters come alive and teach intonation and proper pronunciation.

This exciting technology is perfectly suited to teaching English. It keeps the kids interested and gives them additional opportunities to hear correctly spoken English to improve their own English skills.
